# THE DESIGNER

Carol Appleton. Born in 1961.

Holds a degree in Textile Design and Design Management from the University of Manchester.

An experienced Textile Designer and Creative Director, she has also created two other ReForm collections; Legend and Memory.

# DESIGN INSPIRATION

Mark-making, collage and the aesthetics of chance transfer readily to the floorscape in the **Artworks** collection.

Tilted lines create new shapes in an unpredictable way to disrupt the mechanical precision and hand painted strokes soften the logic of the basic pattern.

# MULTI-LEVEL LOOP STRUCTURE

In the **Artworks** collection, the multi-level loop construction defines shape, brushstrokes and layers perfectly with a beautiful visual texture.

# ARTWORKS – ANGLE

## Angle

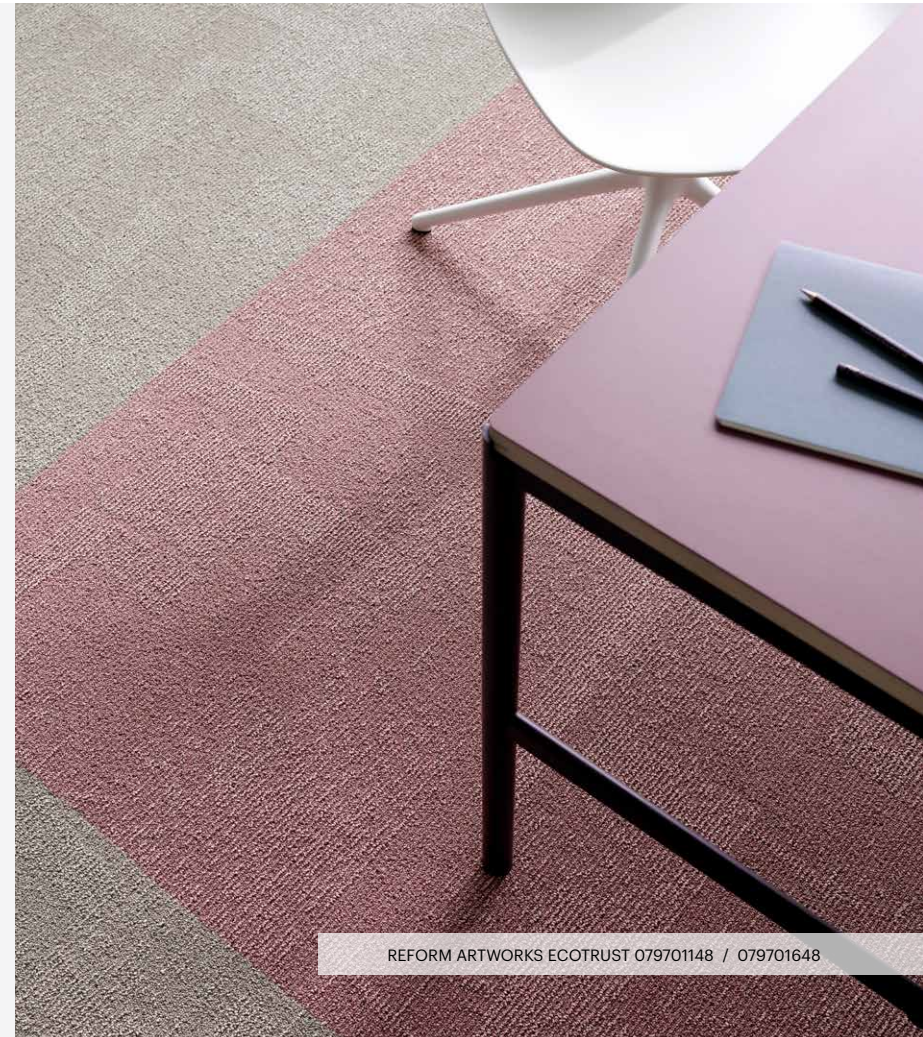

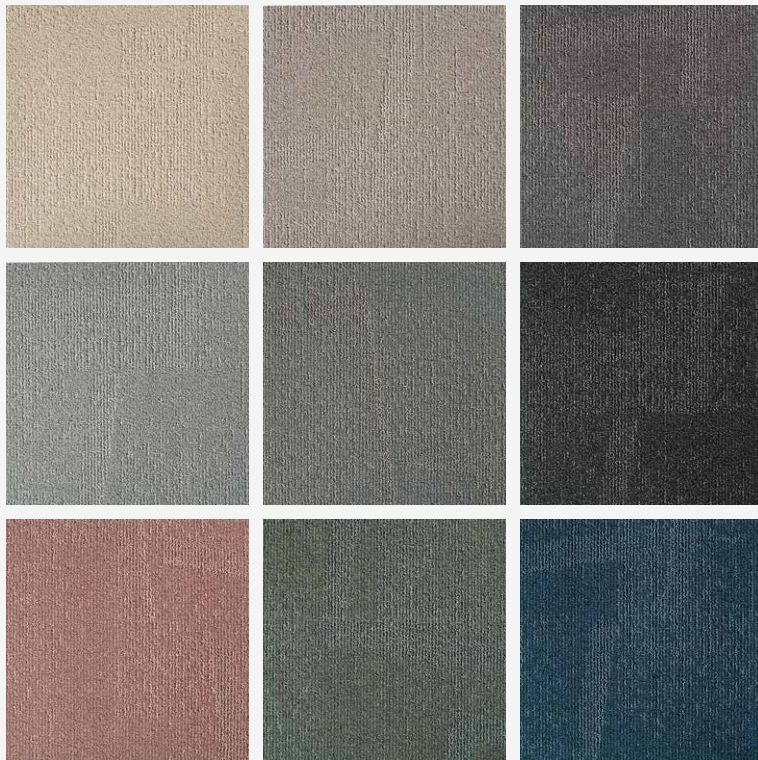

A slight rotation and repetition of a painted square create a collision of shape framing space to a different rhythm. Available in nine solid colours from classic neutrals to more modern shades.

# ARTWORKS – ASSEMBLE

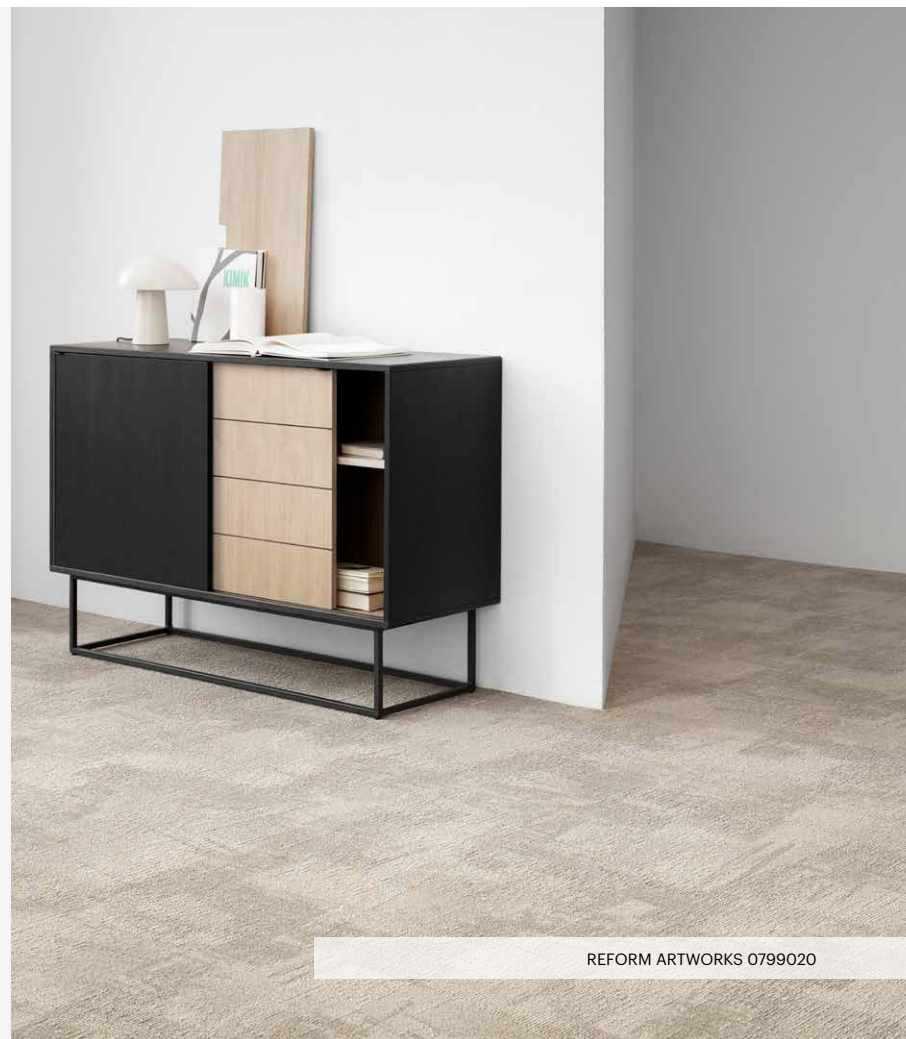

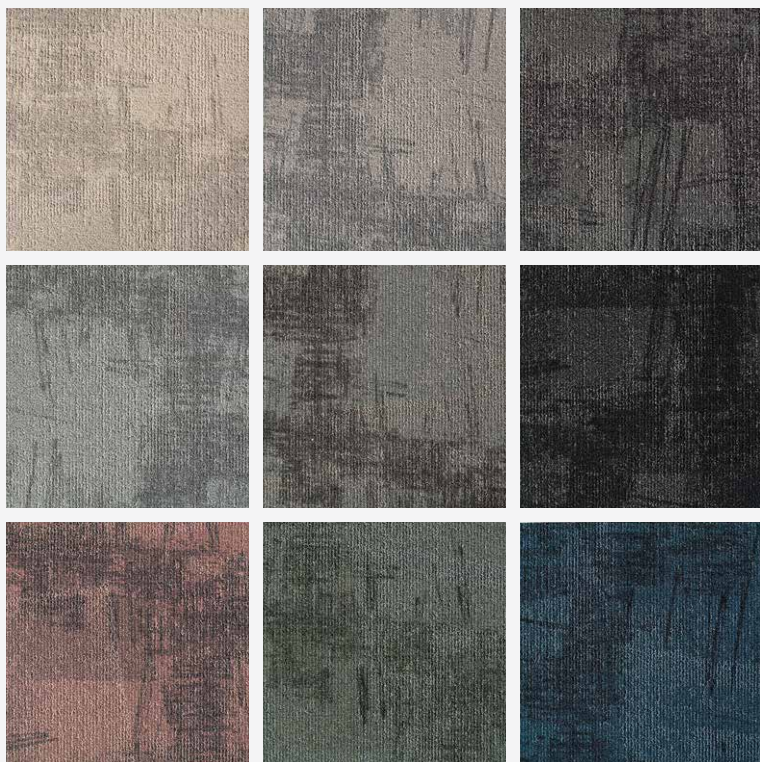

## Assemble

The painter's hand softens the geometry while action-painted marks give the pattern an experimental aspect. Available in nine tone-on-tone colours.

# DESIGN COMBINATIONS

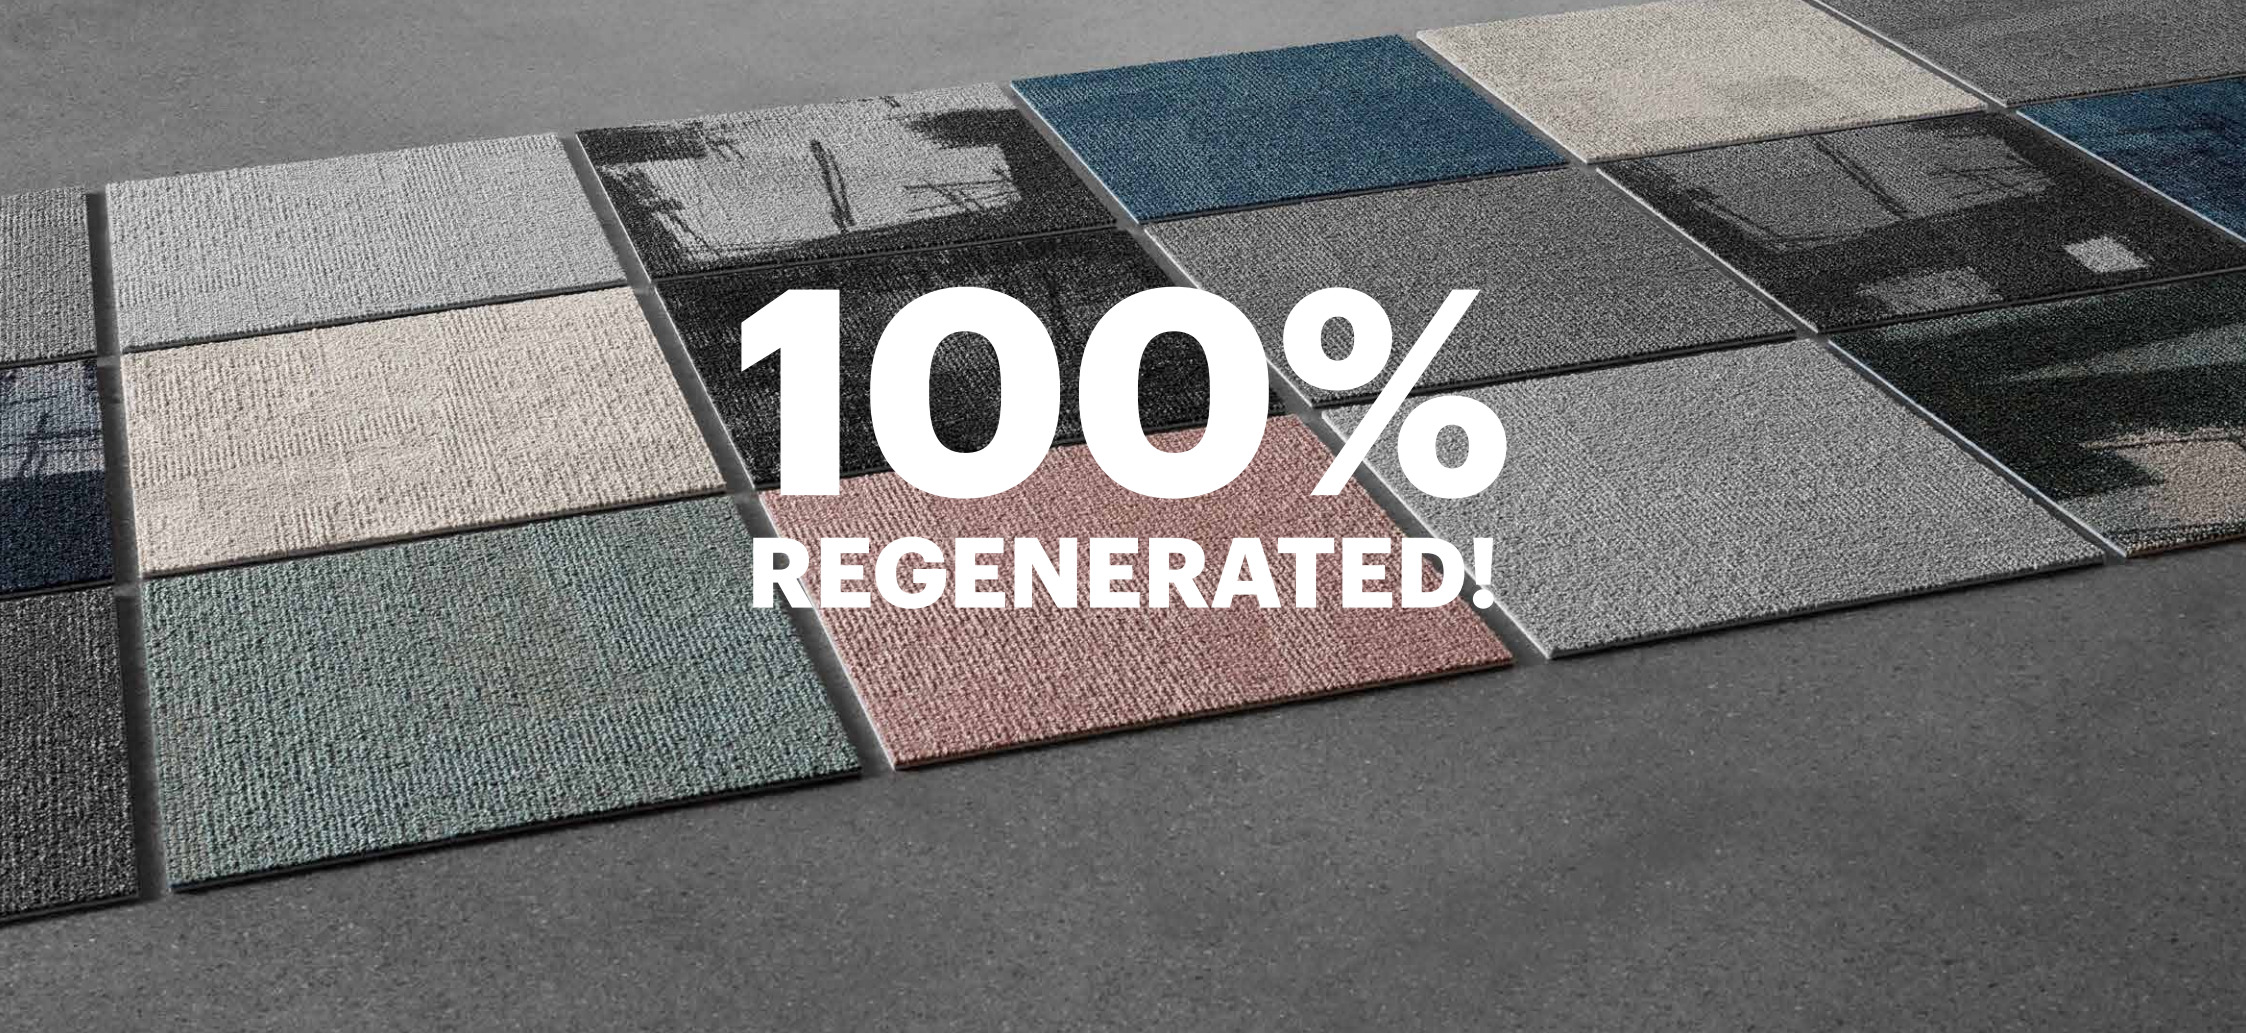

The **Artworks** collection is coordinated across patterns and colour families.

Combine simple solid colours with more graphic layouts to define areas and create a unique and inspiring flooring solution.
